## INT-COM-838Q INTERFACE FOR MOTOROLA MTX838 PORTABLE RADIO

The INT-COM-838Q interface is used to connect Audio Response bone-conduction communications equipment to the Motorola MTX838 portable radio

It provides not only a press-to-talk function but also the required electrical interface between the bone-conduction microphone and the radio

- Rugged high impact plastic case with integral mushroom type press-to-talk button and belt clip
- Connection via integral coiled cable and quick release connector to radio
- 838-HR10 adaptor available for connection to radio
- Integral coiled cable with in-line connector for communications kit, headset, or helmet
